

Linamandla Thutha

IT & CYBER RISK OFFICER / SECURITY ANALYST

**Tamboti Road, Midrand, Gauteng, 1685 | mthuthuzelithutha@gmail.com |
0823054272**

Objective

Highly analytical and risk-aware Cybersecurity professional with an Advanced Diploma in ICT (Specializing in Strategic Information Management Systems & Business Intelligence). Combines hands-on Security Operations Centre (SOC) technical experience with a deep foundational understanding of IT governance and risk management frameworks (NIST CSF, ISO/IEC 27001, COBIT, ITIL). Proven track record of identifying infrastructure vulnerabilities, evaluating technical controls, and translating complex threat data into actionable risk insights. Exceptional stakeholder management and communication skills, with a demonstrated ability to partner across cross-functional technology teams, provide constructive challenges, maintain accurate risk registers, and author robust Standard Operating Procedures (SOPs) to advance enterprise risk maturity and operational resilience.

Experience

SOC Analyst & IT Risk Specialist | Afrocentric IP (Pty) Ltd | Bryanston, Gauteng 2026 Jan-Present

Provide first-level security oversight, real-time threat detection, and control evaluation within an enterprise environment, driving the identification, assessment, and mitigation of technology and cyber risks.

IT & Cyber Risk Partnership, Oversight & Frameworks:

- **Risk Identification & Control Reviews:** Facilitate continuous risk identification and control review activities across enterprise systems; utilize FortiSIEM, Darktrace, and Log360 to monitor anomalies and evaluate control effectiveness
- **Vulnerability & Exposure Analysis:** Oversee automated vulnerability assessments via Nessus Tenable, translating raw vulnerability data into categorized asset risk profiles and logging tracking items to ensure remediation closure
- **Framework Alignment & OSINT:** Leverage OSINT methodologies and foundational knowledge of NIST and ISO 27001 frameworks to evaluate external threat vectors, map out network exposures, and deliver risk reduction insights.
- **Governance & Metric Tracking:** Track key risk indicators (KRIs) relating to host isolation speeds, unauthorized privilege modifications (via ADAudit+), and configuration flaws across Azure/Active Directory environments.
- **Stakeholder Reporting & Dashboards:** Build and maintain accurate security incident dashboards and risk documentation using ManageEngine, providing independent oversight, tracking metrics, and driving updates to internal SOPs.

Volunteer Security Analyst | Afrocentric IP | Bryanston, Gauteng

2025 Jun-2025 Dec

Provide first-level security monitoring, threat isolation, and technical infrastructure support within an enterprise environment, ensuring service stability, system security compliance, and prompt incident response, provided first-level troubleshooting for software environments including installation, configuration and debugging. Assisted with Windows desktop issues, IDE installation and application configuration. Documented issues and resolutions like ticket handling workflows. Performed SQL-based data checks and report verification to validate correct system behaviour. Familiar with user onboarding/offboarding logic.

Education

Durban University of Technology Advanced Diploma in ICT	2025
Durban University of Technology Diploma in ICT in Applications Development	2024
Cisco Network Academy Introduction to Cybersecurity	2022
Cisco Network Academy Network Essentials	2022

Skills & abilities

▪ IT & Cyber Risk Management	▪ SIEM Monitoring & Log Analysis (FortiSIEM)
▪ NIST CSF, ISO 27001, COBIT, ITIL	▪ Key Risk Indicators (KRIs)
▪ Risk Identification & Mitigation	▪ Stakeholder Collaboration & Consultation
▪ Open-Source Intelligence (OSINT) Mapping	▪ Control Reviews & Workshops
▪ Vulnerability Assessment (Nessus)	▪ Technical Reporting & Executive Dashboards
▪ IT & Cyber Risk Management	▪ System Implementation Risk

Soft Skills

I am a self-motivated professional with a strong eagerness to learn and apply new data tools. My approach to customer engagement emphasizes relationship-building and clear communication, allowing me to connect effectively with both technical and non-technical audiences. I bring analytical problem-solving skills with a sharp focus on accuracy, and I am highly organized and dependable in planning, executing, and following through on projects. As a collaborative team player, I adapt quickly to new tools and evolving methods, while maintaining a detail-oriented mindset in documentation, reporting, and system monitoring.
